### CITY. THE

Miss Crane of the Park school has seen called to Vermont by the dangerus illness of a sister.

The decket for the February term of he court is in the hands of the printers and will be out some time this week.

The First National bank obtained a udgment in the county court yesteray against S. K. Felin et al for \$170.25.

The two overcoats that were nimed.

hay against S. K. Felin et al for \$370.20. The two overcoats that were napped rom a hall ruck in the Barker hotel on slonday were lound in Rothold's pawa-thop. Tenth and Harnoy streets, yesterlay afternoon. No arrests were made. R. W. Baker, superintendent of Titts BEE building, as also of the Commercial National bank, is not the B. F. Baker sho has been seeking pay from the city or work done on the old city hall foundation.

dation.

The Canadian-American club at its last meeting initiated four new members, making at present a membership of seventy. Until the new quarters are ready the club will meet in the hall at Fourteenth and Douglas street.

The Thorsen-Houston company was to have the city lighted by electricity an February 14, but has been granted an extension of lime till March 15. It is alleged that eastern workmen engaged upon the machinery were so prostrated with the grip as to be unable to work.

prostrated with the grip as to be unable to work.

The Knox Presbyterians will give a concert at their church, corner Nine-teenth and Ohio streets, this evening. The music will be in charge of Mr. B. H. Young, assisted by Mrs. Fred Nye, Miss Bortha Bayliss and Mr. Richard J. Wherry, Mmc. Mazzucate Young, planist.

Joseph H. Schmitz, who is taking up collections for the Dakota sufferers, states that the place where he makes his headquarters was stated wrong in Monday's BEE. It is at the St. Clair European hotel on Thirteenth and Dodge, just north of the Millard. The cause of the distress in Dakota is attributed by Mr. Schmitz to the drouth.

A young man named Albert Rosen-

drouth.

A young man named Albert Rosenthal was arrested in this city vesterday as a fugitive from Iowa justice and taken over to the Bluffs, where he is wanted to answer to the charge of entering the house of Charles Moores and taking therefrom goods be had sold Moores on the installment plan, and which he claimed had not been paid for. The prisoner waived all ceremony of requisition.

### RAILROAD BUSINESS.

The Union Pacific and Its Contem-

plated Excend tirse.

The Union Pacific will expend nearly a million of dollars this year in new sheps, but not one cent of that sum will be expended in Onnha. Most of it will go to Denver, though Cheyenne comes in forquite a large share. When an official who has more or less to do with the direction and control large share.

quite a large share. When an official who has more or less to do with the direction and control of such matters was asked for an explanation of the object his corporation has in investing so heavily classwhere when the main shors here demand enlargement, said. "To my knowledge, the plant at Denver was planned six or seven years age by S. H. H. Clark, when he was general manager of the road. Two or three times we have commenced to build at Cheyenne, but, from some came, have never succeeded in getting very much done. I believe, however, that once the foundations of two or three stone build and longs were laid. So far as Omata is renemed. I can't see wherein she has any cause for complaint. However, whom an enlargement of the shops here is actually required, I am satisfied it will be made. Years ago plans were prepared and adouted with that does it view. Shortly before T, J. Potter died he discussed this matter and I believe expressed himself as being favorable to the construction of large additions to the snops here. Suppose the company does expend considerable money at Denver and Cheyeune, nearly as much will be invested here in the union dopot as at Denver shops as reported at \$500,000 is about \$500,000 is about \$600,000 to much. The ground was purchased when we first talked of building there,"

purchased when we first talked of building there,"

It is learned from good sources that the Union Pacific has secured a route from Vancouver, Washington Territory, to Tacoma, and will occupy it this year. It lies along the cast side of the Columbia river and passes through a section of rich productive country not touched by the Northern Pacific. The Cowlits river will be crossed at Toledo and the Northern Pacific line at a point near Winlock. From there the Union Pacific proposes to strike across country, touch Ciaquato, continue onthward and recross the Northern Pacific at Centralia. It will not touch Fenins, but cut off seven or eight miles there by taking an an line to Yelm and then running side by side with the Northern Pacific at Centralia.

Northern Pacific into Tacoma.

Track and train mer on the Union Pacific are urging John Wilson, at present assistant to Mr. Cushing, for superintendent of metive power, though there are some doubts about his being able to secure the position. That he is fully qualified to fill it everyone admits, but Mr. Adams seems to be of the opinion that he should have a man of mutual reputation and a committee has been appointed to secure one for him. It is urred that Mr. Wilson's service of twenty years with the rond, his thorough knowledge of the mechanical department and skill as an one-ineer justify outlife him to promotion.

C. E. Phelos who was private secretary.

C. E. Phelps, who was private scirctary to T. J. Potter for soveral years, came with nim to the Union Pacific and is well known in Omaha, has been appointed chief clork to General Manager Paul Survion of the Colorado and Wyoming coal company. After Mr. Potter's death Mr. Phelps took a position under Mr. Morton in the general freight office of the Chicago, Burimeton & Quincy road at Chicago.

General Manager Dickinson and General Passenger Agent Lomar returned yesterday from Chicago, where they completed ar-rangements with the Northwestern for a new time table, to be put into effect about Marchal.

Marchal.

The mountain divisions are now suffering great inconveniences and troubie, as well as the annoying consequences of delays from snow-sides which bury the tracks. The Oregos short line is so badly blocked that trans have been tied everywhere and may not get out for several days. These sides has also created have with the telegraph wires along that line. The company, however, is working big forces of men with snow plows and doing all it can to bring relief as quickly as possible.

The Union Parific sectors and line a bot men.

The Union Pacific is engaged in a hot war with the Northern Pacific road on business destined to Poxet Sound. The latter exportation is determined to prevent the former from handling either passengers or traffic by tickreting and billing them to that far-away port over its own line to Portland and the Northern Pacific from there.

A friend induced me to try Salvation Oil for my rhoumatic foot, I used it and my rhoumatic me at the constant seathers are to the constant seathers, Baltimore, Md.

Positive and unsolicited testimony from every section confirms every claim made for the wooderful efficacy of Dr. Buil's Cough Syrup. Price 25 cents.

A Pl a for Economy.

OMARA, Feb. 4.—To the Editor of The
BEE: As your able advocacy of reduction of
taxes and of lopping off of ornamental chairholders in the various departments of the city government has induced the council to appoint a committee of investigation, would

city government has induced the council to appoint a committee of investigation, would it not be well for that body to look into the duties of the sewer and plumbing inspectors and endeavor to remedy the conflict of authority between these two offices and the almost continual annoyances that plumbers and drain layers are subject to?

To illustrate: A plumber applies at the city engineer's office for a permit to make connection with a public sewer, and, by paying one dollar, receives a permit. Then, when he is ready to lay his sewer pipe, he must apply to the superintendent of plumbing for an inspector to see the sewer laid. If, as is often the case, the plumber or drain the point in the sewer; affect, they the plan in the city engineer's effect, they the plan in the city engineer's effect, they do to plumbing is poweriess to direct him what to do.

Hack must so the plumber to the city engineer's

in the city engineer's office, the inspector from the office of the supernisendent to plumbing is powerless to direct him what to do.

Hack must go the plumber to the city engineer's office and obtain a special permit to open the street at some other point, in nopes of inding a Y, or, perhans, to correct a measurement given that the city engineer's office or, if permission is given to put in a Y at the point first opened, then this work must be done under the supervision of the city sower inspector. Hence we have the spectacle of two inspectors, one under the direction of the city engineer, the other under the direction of the plumbing inspector, to see a few feet of four-inch pipe laid, and the poor plumber must suffer the cost of all delays, mistakes and confliction of authority. Then, at the first of each month, the superintendent of plumbing pressure a report to the council showing the annual of money collected for permits and shanoust of money collected for permits the samulation of money collected for permits done in the city and the collected of the city of the collected of the city sewer inspector is appointed by the mayor, and confirmed by the collecter of the city deprineer or superintendent of plumbing The insector of sewers is an honest, competent and extremely particular man and employs only competent met. If this change was made, there would be more careful work done on our streets and least type with the collection of the city engineer or superintendent of plumbing The insector of superintendent of the city engineer or superintendent of plumbing the insector of superintendent of the city engineer or superintendent of plumbing the insec

The Thrast, "frows's Bronchial Troches" act directly on the organs of the voice. They have an extraordinary effect in all disorders of the throat.

all disorders of the threat.

A gentleman who halled a Sherman avenue motor car was very much surprised to find that the car stopped still for him to get on—a very unusual occurrence. So rare was it that the passengers inquired the reason and the conductor pointed to the front platform, where stood Mr. Smith, general manager of the road. While that gentleman was abound the rules were strictly adhered to, but there is a common complaint about conductors failing to also cars, or even slacken the speed sufficiently to allow a passenger to get on without peril to life or limb. Many motormen will make a show of slacking the speed, but the uncurst the front of the car reaches the spee where the prospective passenger is waiting step throw on full power and by the

time the rear of the tailer comes up the train is running at full speed. Some narrow es-capes from injury have resulted from this practice

For Hra n Fag

Use Hosford's Acid Phosphate.

urinary troubles. It is a grand good remedy
in all cases where I have used it."

### SLEEPS IN PROSPECT RILL.

the all cases where I have used it."

SLEEPS IN PROSECT HIBL.

The Remains of Charles McCormick
Laid to Rest.

The funeral of the late Charles McCormick
took place at 2 o'clock yesterday afternoon
from the residence of his uncle, Josiah S. Mc
Cormick, at the corner of Eighteenth street
and Capitol avenue.

At the hour appointed for the services
the house was filled with friends of the
family who had gathered to pay their final
tribute of respect to the dead. The remains
were enclosed in a handsome metallic casket
ornimented with goid and silver designs,
and was completely covered with haudsome
floral offerings, the tribute of those who had
known and esteemed Charley McCormick
in his life. Among the many
floral tributes were handsome designs given
by the Elix lodge and the Gate City Athletic
cith, of which organizations the decased
was a prominent and active member.

The services at the residence were conducted by Dean Gardiner of Trinity cathedrai, and the music being rendered by the
Trinity choir. The Episcopal birrial service
was read in an impressive manner.

The Fish, 10d in number, were present at
the service. They had met in their lodge
room at 16 clock, there donned their usual
and the missis being rendered by the
Trinity choir. The Episcopal birrial service
was read in an impressive manner.

The Fishs, 10d in number, were present at
the services. They had met in their lodge
room at 16 clock, there donned their usual
and the missis were ladd to rest.

The pall bearers, chosen from among the
intumate friends of the deceased were, N. N.
Crary, J. C. Sharp, H. C. Sharp, R. L. Garlieb, Chaires Saunders, W. R. Morris, W.W.
Barkalow and George Barker.

Services at the grave were conducted by
by Omaha lodge No. 39, R. P. O. Elss, of
which deceased was a member. The burial
coremony of this order is very beautiful and
impressive and, as conducted by Dr. Simon
Quinlan, grand exatted ruler, was most
touchingly effective. The brothers formed
in the ritual, each man droped a soray of
Amoranth and Ivy ou the cof
